## JUICY BERRY LIPS

Who needs mistletoe? Soft smoky eyes paired with a juicy, red raspberry pout are all you need to cause a sensation this season

### FACE

Apply Photo Finish Foundation Primer in Blend all over face using fingertips to even out complexion. Dab and blend Camera Ready Foundation from the nose outward using the half moon brush for a flawless finish. Warm Camera Ready Concealer on the back of your hand, then use Concealer Brush #4 to sweep under eyes, nose and over any imperfections. Give cheeks a sexy flush by using Travel Angled Blush Brush from the WISH for the Perfect Tools Kit to sweep Mini Fusion Soft Lights in Dusk over cheekbones.

### EYES

First pat Photo Finish Lid Primer over lids for smoky eyes that last. Using the Eye WISH Palette and Travel Crease Brush, sweep the silver shadow on lids from lashline to brow. Apply the soft smoke shadow over lids using Travel Shadow Liner Brush. Line upper and lower lashlines with the black cream liner using Travel Angled Precision Liner Brush. With the same brush, smudge the deep smoke shadow into the liner for a smoldering effect. For extra definition, apply Jet Set Liner in Black to the inner rim using Arced Liner Brush #21. Multiple coats of Lash DNA Mascara in Jet Black completes the eyes.

### LIPS

Using WISH for the Perfect Pout Kit, generously apply Lip Enhancing Gloss in Tease.
